Seahawk Equity Long Short Fund - EUR-S

ISIN: LU1910828935

The Fund is managed by IPConcept (Luxemburg) S.A.

Objectives and investment policy

The objective of the Seahawk Equity Long Short Fund is to achieve a positive absolute performance regardless of the market direction. The focus is on the aerospace, shipping and other transport companies and energy sectors.

The Fund invests at least 51% of its assets in shares. In compliance with the "Tax Investment Restrictions", the Fund is an equity fund. The Fund may also invest its assets in bonds, money market instruments, other funds and bank deposits. However, no more than 10% of the Fund's assets may be invested in other funds. For hedging purposes or to increase its assets, the Fund may use financial instruments with a value that depends on the future prices of other assets ("derivatives").

Detailed information on the aforementioned (and/or further) investment opportunities of the Fund can be found in the current sales prospectus.

In principle, investors may redeem their shares on any banking day in Luxembourg, with the exception of 24 and 31 December. The redemption of shares may be suspended in extraordinary circumstances if this is deemed necessary in the interests of investors.

The Fund reinvests but does not pay rewards to investors.

Risk and reward profile

The historical data used for calculating the synthetic indicator are not a reliable indication of the future risk and reward profile of the share class. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.

This share class has been placed in the aforementioned risk class because its unit price is subject to medium to significant fluctuation, therefore the profit potential and loss exposure may be moderate to high.

Because of the calculation model used, all risks may not be taken into consideration when placing the share class in a risk class. Detailed information can be found in the section entitled "Risks" of the prospectus. The following risks have no direct influence on this categorisation, but may be significant for the Fund:

Credit risks:

The Fund may invest part of its assets in bonds. The issuers of these bonds could become insolvent, causing the bonds to lose some or all of their value.

Liquidity risks:

The Fund may invest part of its assets in securities that are not traded on a stock exchange or similar market. It may be difficult to find a buyer for such securities in the short term. As a result, the risk that share redemptions will be suspended may increase.

Counterparty risks:

The Fund may enter into various transactions with counterparties. If a counterparty becomes insolvent, that party will not be able to meet some or all of its open obligations to the Fund.

Risks relating to the use of derivatives:

The Fund may enter into derivative transactions for the purposes listed above in the section "Investment policy". This means increased opportunities, but also increased risk of losses. The use of derivatives to hedge against losses may also reduce the profit opportunities of the Fund.

Operating risks and custodial risks:

The Fund may fall victim to fraud or other criminal activities. It may suffer losses through misunderstandings or errors on the part of employees of the investment company or third parties or be hurt by external events, such as natural disasters. There is a risk of loss associated with holding assets in custody, especially abroad. This risk may result from insolvency, negligence or misconduct on the part of the Custodian or a sub-custodian.

Charges

One-off charges taken before or after you invest

Entry charge	0,00%
Exit charge	5,00%

This is the maximum that might be taken out of your money before it is invested or before payment of the redemption price. Please consult your financial advisor for the actual amounts.

Charges taken from the Fund under certain specific conditions

Performance fees:

Up to 15% of the Fund's performance, provided previous depreciations in value have been offset. Payment is made annually.

Charges taken from the Fund in the past financial year

Ongoing charges	0,97%
------------------------	--------------

This value is based on an estimate as the share class has not yet fully completed a financial year. The value may vary from year to year.

Any eventual performance-related fee as well as any transaction costs incurred, with the exception of the transaction costs of the Custodian Bank, are not included in the 'ongoing charges' figure.

Past performance

The share class was established in 2019.

Because this share class has been newly launched, no useful information about previous performance can be made available here.
